

Automated Options

Kolbe's quality windows & doors paired with the latest technology.

Providing increased ease of use, you can now operate windows and doors with a touch of a button or a flip of a switch. Kolbe is proud to offer the latest technology advancements integrated into select window and door products. This advancement allows items to be controlled with remotes, keypads, touch screens and other integration devices. See below for a selection of Kolbe windows and doors available with automated options.

TerraSpan® Lift & Slide and Multi-slide Doors

- ▶ Easy-to-use touch pad operating system capable of working with large, heavy door panels and multiple units
- ▶ User-friendly system with adjustable opening/closing speeds and several safety features that provide immediate feedback to the user for trouble shooting and service recommendations

Entrance Doors

- ▶ Electronic multi-point lock system provides security, safety and ease-of-use to the owner
- ▶ Factory-installed with easy connection to various control integration devices, such as biometric, keypad or touchscreen technology
- ▶ Automatically locks when door closes after 3-second delay

Casements & Awnings

- ▶ Provides ventilation for hard to reach applications
- ▶ Operates on standard 110-volt electricity
- ▶ Easy on-site wiring
- ▶ Can be integrated with operating systems (push button, toggle switch, etc.)
