

Centor® Retractable Screens from Kolbe®

Kolbe now offers **Centor® retractable screens** to accommodate large openings, delivering seamless operation, flexible configurations, and elevated aesthetics across select window and door products. Designed to discreetly house within its own frame, this system preserves expansive views while providing insect protection, privacy and glare control.

Allowing design flexibility with a choice of frame, screen mesh and shade options, the sleek Centor® retractable screen complements Kolbe® folding windows and a selection of doors to dramatically refine modern indoor-outdoor living.

Aluminum frames are offered in popular colors, or if a warm, organic aesthetic is preferred, wood veneer can be fitted to the frame. Choose from an array of screens and shades to create a configuration that not only transforms your home, but enhances your lifestyle.

Available Configurations & Sizes

- **Single panel** (left or right mounted)
Width: up to 181 ½" | Height: 32 ⅞" to 157 ½"
- **Double panel** (bi-folding)
Width: up to 354 ⅞" (or 180" per side if split) | Height: 32 ⅞" to 157 ½"
- **Combination** (screen & shade on opposite sides; left & right mounted)
Width: up to 181 ½" | Height: 32 ⅞" to 157 ½"

NOTE: Maximum widths are dependent on the thickness of the selected shade or screen fabric.

Screen Frame & Pull* Colors

White	Bronze	Black	Clear Anodized
Douglas Fir	Mahogany	White Oak	

*Screen pull colors to match frame are available for double screens only.

Centor® Retractable Screen Shade Options

Further personalize your window or door openings with an array of shade fabrics, including light-filtering, sun-filter and blackout in a variety of colors and textures. Create unique configurations that combine screens and shades within the same unit for openings that allow ventilation while providing shade or privacy at the same time.
