

# MULTI-FAMILY & MIXED USE

## FORGENT® SERIES

Known for strength, performance and ease-of-installation, Kolbe's Forgent Series is an ideal choice for multi-family and mixed use projects. Designed for long-term durability, these energy efficient windows and doors provide comfortable spaces.

# STRENGTH. PERFORMANCE. EASE OF INSTALLATION.

## THE FORGENT® SERIES

Kolbe's Forgent Series windows and doors feature a proprietary material and thoughtful design, making them simple, convenient and easy to install. Coordinated with construction timelines, the units are delivered to the jobsite ready for efficient installation, making the Forgent Series a perfect choice for any multi-family or mixed use project.

Made from an innovative recyclable material, Forgent Series windows and doors promote sustainability in today's environmentally responsible building projects.

Forgent Series manufacturing byproducts are recycled for use in other industries.

## CONSTRUCTED FOR JOBSITE EFFICIENCY & SUCCESS

### THE FORGENT SERIES OFFERS:

- Energy efficiency & impact performance options to meet local climate demands
- An advanced ladder design with multiple chambers for high performance & strength
- Ability to meet or exceed ENERGY STAR® requirements in the U.S.
- Welded sash & frame with AccuForge™ technology for a smooth, air & watertight seam
- Innovative Glastra® material for low maintenance & durability
- Three convenient certified installation methods: integral nailing fin, installation clips, & screw through frame

## PRODUCTS

### WINDOWS

*All Glastra or Glastra/Wood*

- ▶ Casements
- ▶ Awnings
- ▶ Double hungs
- ▶ Sliding
- ▶ Direct sets (rectangular, geometric & radius)

### COMPLEMENTARY DOORS

*Select doors available from Kolbe to complement Forgent Series products*

- ▶ Swinging
- ▶ Sliding
- ▶ Multi-slide

### MULL CONFIGURATIONS

Factory-mulled windows can be shipped to the jobsite ready for field installation. Endless mull configurations allow you to combine multiple windows and doors in various horizontal or vertical arrangements.

### SIZES

The Forgent Series offers larger window sizes that allow more daylight into the building and make living areas feel more spacious.

Maximum shippable size is 114" x 101". Please see a Kolbe representative for more information.

# PROPRIETARY GLASTRA® MATERIAL. UNPRECEDENTED DESIGN.

## GLASTRA®

Forgent Series products are comprised of Glastra, a proprietary hybrid of fiberglass and UV stable polymer, formulated for strength and resilience. To suit various performance requirements, a Glastra exterior and a choice of Glastra or Wood interior is available in select colors and finishes.
