

Ultra Series

For nearly 80 years, Kolbe has been known for innovative products that push the boundaries and defy the limits of function, performance and style. Exceptional design, quality craftsmanship, endless options and custom solutions allow Kolbe to personalize your design experience with distinctive windows and doors. With multiple product lines designed to meet specific architectural and aesthetic goals, each offers distinct advantages, while remaining vastly customizable.

The Ultra Series

Designed for versatility, durability & performance – with an array of options.

The Ultra Series provides:

- Durable extruded aluminum exterior in 50+ standard colors & finishes, plus custom hues
- Warm wood interior in familiar to exotic species, with 20+ standard pre-finishes, plus custom finishes
- Versatile styling, from traditional to modern architectural details
- Enhanced energy efficiency & impact performance options to meet climate demands
- Divided lite profiles & patterns
- Low-E, performance, & specialty glass
- Hardware options & finishes to match any décor
- Automation options for ease of operation

Energy Efficiency

Kolbe participates in ENERGY STAR® and WDMA Hallmark Certification programs to ensure that our products are tested to industry standards, in order to meet or exceed today's strict building codes.

Many Ultra Series products can also meet California's Title 24 Building Energy Efficiency Standards, as well as PHIUS verification.

See kolbewindows.com/solutions/energy-efficiency for energy performance data and climate zone maps

Impact Performance

Specially designed with the strength and durability to withstand hurricane force winds and flying debris, Kolbe's Ultra Series impact performance products are independently tested for coastal regions. There are no unsightly rods or extra locks to fasten, so Kolbe's impact-certified products offer the same beautiful appearance as non-impact products.

See our Impact Performance brochure for our full listing of products for coastal areas.

Sustainability & Resilient Design

Whether building a new house or updating an existing one, thoughtful choices create enduring homes that are beautiful, comfortable and instill peace of mind. Our wood species are renewable resources sourced from managed forests, and our standard glass contains 25-30% recycled content. We can also provide The Forest Stewardship Council® (FSC®)-certified wood species for many products (FSC® license code FSC®-C019541).

Style & Design Options

Kolbe's endless variety of options allows you to choose wood species, divided lite patterns, sizes, shapes, interior and exterior finishes, hardware, and more – or create an even more personalized design with our custom solutions.

Universal Design & Automation

When it comes to accessible spaces for individuals of diverse physical ability levels, Kolbe offers options for a variety of windows and doors. For ease of use, Kolbe integrates advanced technology or specialized hardware into select products, putting the control at your fingertips – with remotes, keypads, touch screens, and other devices.

Exterior Trim

- Brickmoulds
- Casings

Insect Screens

- BetterVue® mesh
- UltraVue® mesh
- Aluminum mesh
- Retractable
- WaterShed™ Technology

*Ultra Series products with impact performance capabilities. See your Kolbe dealer for details.

Wood Species

In addition to the standard pine, Ultra Series windows and doors can be constructed of other optional wood species that enhance their look. Pine and other wood species are sourced from managed forests. The Forest Stewardship Council® (FSC®)-certified wood species are also available to help support responsible forestry (FSC® license code FSC®-C019541).

Ask about additional available wood species.

Interior Finishes

For units that are ready to install upon delivery, Kolbe's Ultra Series windows and doors can be prefinished on the interior with one of the water-based stains or paints shown. Stained units are given two coats of satin finish clear sealer. Because our interior finishes are water-based, low-VOC stains and paints, you can rest assured you've made an environmentally conscious decision. Custom colors may be requested as well.

*Applied as a single coat of paint, with some visible wood grain.

Stain colors are shown on pine. Since no two trees are identical, wood can be expected to differ both in color and graining. These factors will influence the stain's final color.

Color-matched interior paint is available through any Sherwin-Williams retail store in the United States and Canada. The color formula for Kolbe's interior paint finishes is in their National Account System.

**Coastal applications vary from this. Please contact your Kolbe dealer for warranty specifics.

† Mica finishes are 70% PVDF fluoropolymer as standard. Fluoropolymer coatings meet performance requirements of AAMA-2605 and are recommended for coastal applications. Please see your Kolbe dealer for details.

Some options for our products may have limited color offerings or may incur a nominal charge. Check with your Kolbe dealer for further details on pricing and availability.

Printed images of exterior finishes may vary slightly from actual colors. Selections should be made based on actual color samples available from your Kolbe dealer.

There is a "color range" with anodized colors. That is, there is an acceptable "light" to "dark" color range that can be experienced on any job. According to AAMA 611-98 specifications, Section 8.3, the range may be up to 5 Delta E's. We can provide from our anodized vendor color samples of this color range if requested. The color range is due to numerous variables which include (but are not limited to) the shape of the parts, alloy variations and time in the anodizing process. This could mean that a sash part may appear slightly different in color than a frame part. This is/will be acceptable. Even the samples that may be provided may vary from the final product due to the variables. You must be aware of this as this will be considered acceptable.

Exterior Colors & Finishes

Kolbe's Ultra Series products are finished with a 70% PVDF fluoropolymer coating – a great choice for durability, chemical resistance, abrasion, corrosion and weathering. It carries up to a 30-year warranty**, proving Kolbe's commitment to the very best. In addition to the standard colors, Mica† or Anodized can be specified, as well as custom colors.

Professional Tools

Kolbe prides itself on offering the tools and resources architects, builders and other industry professionals need to complete their projects. From product specifications and 3D models to continuing education courses and webinars, Kolbe supports all of your project needs.

Architect Library

Kolbe's Architect Library is the main resource for specifying Ultra Series windows and doors. Search detailed product information, including:

- Cross section drawings
- Elevation charts
- 3D Revit® models
- CSI specifications
- Installation instructions

Additional resources include:

- Door configurations
- Clear openings
- Care & maintenance guide
- Acoustic data
- Energy performance
- Performance class & grade
- Product brochures
- Color & design samples
- Warranties

AIA/CES Courses

As a Registered AIA Continuing Education Services (CES) provider, Kolbe provides AIA Learning Units (LU) and/or Health, Safety & Welfare (HSW) credits as required per state and/or professional memberships to meet yearly requirements.
