

VistaLuxe® Collection

Impact Performance Capabilities

Kolbe knows the style and functionality of your windows and doors matter as much as the peace of mind they provide. That is why our innovative VistaLuxe® Collection offers a selection of impact-certified windows and doors with the same beautiful appearance as non-impact products. Choose from **VistaLuxe AL LINE** and **VistaLuxe WD LINE** windows and doors for expansive views offering beauty and performance – no matter the climate or region.

Floor-to-Ceiling Views from Coast to Coast

Our VistaLuxe® Collection impact-certified products are specially designed with strength and durability to withstand hurricane-force winds and flying debris, and are tested extensively to meet or exceed the strict building codes of the coastal regions.

View the full listing of **VistaLuxe WD LINE** and **VistaLuxe AL LINE** products with impact ratings on the reverse side of this page.

Kolbe's impact-certified products provide:

- Enhanced performance & energy efficiency
- Zone 3, Zone 4 and/or HVHZ performance
- Reduced heating & cooling costs
- Quieter, more comfortable living spaces with peace of mind

VistaLuxe® WD LINE

The VistaLuxe WD LINE offers durable extruded aluminum exteriors with a vibrant, long-lasting color palette and two exterior profile styles. The wood interior brings a warm and organic feel to minimalist design, with square profiles and clean lines.

VistaLuxe® AL LINE

The VistaLuxe AL LINE offers thermally-broken, all-aluminum windows and doors that reinforce the clean lines and square profiles of the collection. Achieve large expanses of glass, and select from distinct options.

Below is an overview of VistaLuxe Collection impact-certified products and their performance ratings.
